## Letter of introduction and company profile.

Dear Sir,

At Eagle Aqua Solution, we specialize in helping industries, institutions, and communities reduce, reuse, and recycle water. With over a decade of experience, our expert team offers end-to-end solutions, including the design, engineering, installation, and maintenance of WTP, STP, ETP, desalination, wastewater recycling, and Zero Liquid Discharge systems

Eagle Aqua Solution is committed to providing advanced water solutions for industries and communities. With 7+ years of experience, we excel in the design, supply, installation, and operation of WTP, STP, ETP, desalination plants, and recycling systems to achieve sustainable water management goals.

"We are a team of dedicated professionals specializing in Operations & Maintenance, Project Management, Consultancy, and the supply of water treatment chemicals and spare parts (including filter vessels, tanks - MS/FRP, valves, cartridge filters, etc.). Our expertise spans across various water and wastewater treatment systems, including Sewage Treatment Plants, Water Treatment Plants, Softener Plants, RO Plants, and Effluent Treatment Plants."

We have a passionate and enthusiastic in house team of Technical Experts, Project Managers, Site- Engineers, Site-Supervisors, with our team of Operating Staff on site who enjoy their work and perform their duties with responsibility. Over these years we have successfully rendered our services to almost all reputed clientele in and around Pune city.

We strongly feel that water management in every corporate and residential projects has become key area specially water recycle management i.e. STP plant.
